Bloom's taxonomy is a set of three hierarchical models used to classify educational learning objectives into levels of complexity and specificity. The three lists cover the learning objectives in cognitive, affective and sensory domains. The cognitive domain list has been the primary focus of most traditional education and is frequently used to structure curriculum learning objectives ...

With the recent publication of PHYSICS IS... there are now three Ask the Physicist books! Click on the book

images below for information on the content of the books and for information on ordering.

Ask the Physicist!
City/state/province etc are qualifiers. On their own they don't specify anything specific and therefore aren't proper nouns. New York City is a vague virtual identity, meaning what it needs to mean to a particular writer.

Should the words "city"/"state"/"province" be capitalized
Iâ€™ve got a degree in psychology, although I studied physics for a year and a term, and I considered post grad study in the philosophy of science (which psychology, being somewhat uncertain about ...
