Post-structuralism, sometimes referred as the French theory, is associated with the works of a series of mid-20th-century French continental philosophers and critical theorists who came to international prominence in the 1960s and 1970s. The term is defined by its relationship to the system before it – structuralism (an intellectual movement developed in Europe from the early to mid-20th century).

People who grew up without green spaces are 50 per cent more likely to develop schizophrenia compared with those who grew up surrounded by greenery. This is the conclusion of a new study, which is the first to find such a correlation. Even though a 50 per cent higher risk sounds like a lot, it is ...

The doctrine or theory of immanence holds that the divine encompasses or is manifested in the material world. It is held by some philosophical and metaphysical theories of divine presence. Immanence is usually applied in monotheistic, pantheistic, pandeistic, or panentheistic faiths to suggest that the spiritual world permeates the mundane. It is often contrasted with theories of transcendence ...

That postmodernism is indefinable is a truism. However, it can be described as a set of critical, strategic and rhetorical practices employing concepts such as difference, repetition, the trace, the simulacrum, and hyperreality to destabilize other concepts such as presence, identity, historical progress, epistemic certainty, and the univocity of meaning.

ABSTRACT. Being technologies always present throughout the art history, which is mainly constituted by images, we will try to understand in which extent digital technology, considered to us as a main structure in the way the viewer faces creative production, interferes with the artistic procedures.
