SchedulePro is a finite capacity scheduling (FCS) tool for batch and semi-continuous manufacturing processes. Some typical applications for SchedulePro include:

## **Intelligen, Inc.: EnviroPro Designer, Environmental**

In project management, a schedule is a listing of a project's milestones, activities, and deliverables, usually with intended start and finish dates. Those items are often estimated by other information included in the project schedule of resource allocation, budget, task duration, and linkages of dependencies and scheduled

events. A schedule is commonly used in the project planning and project ...

Software maintenance in software engineering is the modification of a software product after delivery to correct faults, to improve performance or other attributes.. A common perception of maintenance is that it merely involves fixing defects.However, one study indicated that over 80% of maintenance effort is used for non-corrective actions. This perception is perpetuated by users submitting ...
