

music and consciousness philosophical pdf

Consciousness is the state or quality of awareness or of being aware of an external object or something within oneself. It has been defined variously in terms of sentience, awareness, qualia, subjectivity, the ability to experience or to feel, wakefulness, having a sense of selfhood or soul, the fact that there is something "that it is like" to "have" or "be" it, and the executive control ...

Consciousness - Wikipedia

Artificial intelligence has close connections with philosophy because both share several concepts and these include intelligence, action, consciousness, epistemology, and even free will. Furthermore, the technology is concerned with the creation of artificial animals or artificial people (or, at least, artificial creatures) so the discipline is of considerable interest to philosophers.

Philosophy of artificial intelligence - Wikipedia

absolutism “ the position that in a particular domain of thought, all statements in that domain are either absolutely true or absolutely false: none is true for some cultures or eras while false for other cultures or eras. These statements are called absolute truths. A common reaction by those ...
