In contrast to the earlier theories on traits or characteristics or situational approaches which concentrate on the leaders, this transformational leadership instead focused on the leaders and followers relationship.

Relationship Between Leadership Style, Job Satisfaction

Shared leadership is a leadership style that broadly distributes leadership responsibility, such that people within a team and organization lead each other. It has frequently been compared to horizontal leadership, distributed leadership, and collective leadership and is most contrasted with more traditional "vertical" or "hierarchical" leadership that resides predominantly with an individual ...
