

odell mandolin instruction book pdf

The banjo is a four-, five-, or six-stringed instrument with a thin membrane stretched over a frame or cavity as a resonator, called the head, which is typically circular. The membrane is typically made of plastic, although animal skin is still occasionally used. Early forms of the instrument were fashioned by Africans in the United States, adapted from African instruments of similar design.

Banjo - Wikipedia

Mimi, hope all is well with you as it is with us. Thank you for a great SOMOS PRIMOS issue for June 2009. I thought you might be interested in including the attached article in the next issue.
